Preface *xiii*

Acknowledgements *xv*

Section 1 : Tooth Morphology

- | | |
|-------------------------------------|----|
| 1. Introduction to Tooth Morphology | 3 |
| 2. Morphology of Permanent Teeth | 16 |
| 3. The Deciduous Dentition | 67 |
| 4. Occlusion | 84 |

Section 2 : Oral Embryology

- | | |
|--|-----|
| 5. Brief Review of Development of Face, Jaw, Lip,
Palate and Tongue | 93 |
| 6. Development of Teeth | 99 |
| 7. Eruption of Deciduous and Permanent Teeth | 108 |
| 8. Shedding of Deciduous Teeth | 113 |

Section 3 : Oral Histology

- | | |
|--|-----|
| 9. Detailed Microscopic Study of Enamel,
Dentin, Cementum and Pulp Tissue | 121 |
| 10. Detailed Microscopic Study of
Periodontal Ligament and Alveolar Bone | 175 |
| 11. Oral Mucous Membrane | 201 |
| 12. Salivary Gland | 220 |
| 13. Temporomandibular Joint | 229 |
| 14. Maxillary Sinus | 236 |
| 15. Processing of Hard and
Soft Tissues for Microscopic Study | 242 |

Section 4 : Oral Physiology

16. Saliva	251
17. Mastication	260
18. Deglutition	265
19. Calcium, Phosphorus and Fluoride Metabolism	269
20. Physiology of Taste	275
21. Physiology of Speech	278
